About This Game

You drift around a corner at 500 mph, activate turbo boost, and blast through the sound barrier. You lock eyes on your opponent, and the lasers mounted on your hood follow your vision. A few crisp bursts and you're dodging a tumbling mass of fire. No time to marvel--that next corner is coming fast as you race on a track with more twists and loops than a roller coaster.

Welcome to hyperspeed combat racing. Welcome to Bank Limit.

Many ways to play

Supports Oculus, Vive and traditional 2D displays. Uses both Oculus and Vive native libraries to support platform-specific features such as Asynchronous Time Warp. Plug and play with Xbox 360, Xbox One, Vive, Keyboard & Mouse and Steam Controllers.

Cross-platform multiplayer

Play with your friends and frenemies. Everyone plays together whether you have a VR headset or not.

Take flight at will

Disengage from the track, soar over your opponents, and then lock back down to secure victory.

Fastest game ever

With top speeds ranging from 800 to 10,000 mph, discover what true hyperspeed racing feels like.

With 20 Tracks for combat racing, 3 Battle Arenas for deathmatch play, and 9 weapons for destruction, the possibilities for mayhem are endless. Bank Limit: Advanced Battle Racing will be supported post-launch with new content that players will be

able to vote on.

Now i just need the more lewd version of the game uwu. This game is too expensive in my opinion, there is a lot of bugs in the game and they dont even update it anymore. I don't recommend this game.. "I understand. We've all got a past, and damn few of us have reason to be proud of it."

- Ishmael Ashur.

The Pitt is the second dlc released for Fallout 3.

Like the name suggests, the dlc's story takes place in The Pitt, which is post war Pittsburg. It's a small map, not with that many locations to explore, with it's own unique types of enemies.

It is mostly story driven, with good story, with a few interesting characters, but it can be beaten in a few hours, so it feels a bit short.

There isn't really any side quest, the closest thing I could find was to collect a bunch of steel ingot, place around the map, and you get a reward afterwards.

The gameplay is pretty much the same as it is in the main game.

The dlc also adds new weapons and armor.

Overall, even though The Pitt have a short story it is still good, the map is not that big, but it feels like it fits pretty well with the story. The Pitt is worth the price tag.. It IS NOT tower defence game. It is just bad design shooter. I will consider to buy it when price will drop to 0.20\$. Not worth even one cent more.. one of the fastest trains ever. There's really not a lot to say about Archery Blast that isn't obvious. But to buy a game that's such fun, and so VERY challenging with the constantly moving bow (and often targets also), with SIXTY levels.....

...for only 74 CENTS (on sale, \$.99 otherwise) it's really hard to go wrong. To kill some time while you stay out of trouble (think how much you COULD be spending!), it's a Big Ol' YES!!! (Trust me, it's jjust ZEN as all git out!)

Thanks, y'all!. And incredibly well-crafted platformer. Fun, low price, great presentation. Buy it.. A nice little game, which I didn't play too much yet, but I had a lot of fun.

The tower-defense mode is good. You have to shoot the monsters, before they get to the gold of your castle. Wave after wave, you will get gold which you can spend on skills (such as, more damage, projectile speed....)

Unfortunately I wasn't able to play multiplayer games yet - no one was looking for an online match when I tried. Your best bet is to play with a friend.

Remember, this is an Early Access game and could change V get more content in future updates.. Henez really hit it home with this one. top game. just wish he'd port Dark Reverie to windows 10

An adventure CYOA game from COG. A bit different than usual fantasy or hero subjects. An interesting premise and story of an scholar to prove or not existence of mermaids. I liked it. Unfortunately, the story is very short. As I was slowly progressing through story, came to an abrupt conclusion and ending. Author definitely could have worked more on supporting character development as there was a lot of potential to do so. A good buy but not a must buy.

7V10 Forced to chose side in a marital issue. Tried to not take side so they both sided against me. Mission accomplished?. I have lots of fun with that game and i want more! Your team are on the good track for sure! Now the bad... The belt for hanging the gun should be a all around belt ... Cause the the virtual hip follow the head and it is hard to quick draw with a full body motion. Just saying! And for the menu it should be just a shoot it menu no cursor we do not need cursor only bullets!bullets!bullets! It is a gun game after all no! I wish you good luck and keep the good work!. The person who created this is clearly a masochist.

I love it.

. this game I give 10 out of 10 because it fun i want a redux of all 2 game or a new game it fun. Battleplan: American Civil War could get by with its minimalistic graphics if, upon closer inspection, it had some real depth in the gameplay by the way of ultra historically correct maps and commander and unit details. It doesn't have any of these elements, and so I'll go ahead with the only two positives I can think of:

1) One interesting function that this game has, that I wish others did, is that all commands issued by the General must be received by a messenger. If the messenger dies, the message is not received and the unit you're attempting to move stays where it is. Sometimes unit commanders will refuse a command -- no reason is ever given, but both of these elements add some character and unpredictability.

2) The Steam wallpapers are pretty cool. Yep.

The flaws are manifold, but I will go for the chief hang ups that I have with this game: it rarely works, and it has zero support. I have an ASUS G73jh that cannot run this game, and yet a low-end Dell at work, that barely runs Minesweeper, can somehow get the game running. Take a few minutes in the forum and you'll see that it is a crapshoot if this game will run for you -- and the only pseudo-representative of the company can do nothing but forward e-mails after asking *you to jump through diagnostic hoops. As Steam customers, I believe we deserve a little more.*

Stay away from this title.

. The game so far is pretty short, just one chapter, but I really enjoyed what I played. Needs some work, but what's there feels like a really solid foundation. Really looking forward to seeing what this turns into. And at the price, I'd very much recommend it.
